Art Unit: 1771

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 12, 14, 16 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification as originally filed does not provide support for the limitation that the cross-section of the bulgy areas is non-hollow.
3. Claims 1-2, 4, 9-10, 11, 13, 15, are rejected under 35 U.S.C. 102(b) as being anticipated by McCormack et al, U.S. Patent No. 5,882,769 for the reasons set forth in paragraph 4 of the previous action. With regard to new claims 11, 13 and 15, the bulgy areas of McCormack have the claimed shape. See figures.
4. Claims 1-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over McCormack et al in view of Thornton et al, U.S. Patent No. 5,244,716 and Reed et al, U.S. Patent No. 4,908,263 for the reasons set forth in paragraph 5 of the previous action.
5. Applicant's arguments filed 10/15/04 have been fully considered but they are not persuasive. Applicant argues that the portion of the structure of McCormack which corresponds to the substantially flat zones were not pointed out in the previous action. However, the areas which form the bonds correspond to the substantially flat zones.

Art Unit: 1771

The bonding can be in the form of lines which extend in parallel across the laminate, see fig. 1 and col. 7, lines 1-3. Further, with regard to McCormack, either of the two layers 12,14 in fig 1 can be film or nonwoven. Therefore, the layer 12 can be a nonwoven and the layer 14 can be the nonwoven layer. Therefore, the areas where the two or more layers are bonded correspond to the claimed substantially flat zones.

6. Claims, 18-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
